SUMMARY

Software Engineer with experience in developing scalable and secure applications using Java Spring Boot and React Js. Skilled in backend development, API design, and database integration, with working knowledge of modern front-end technologies including React. Focused on writing clean, efficient code and delivering reliable software solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL (MySQL), HTML/CSS

Frameworks & Platforms: Spring Boot, Spring Data Jpa, Spring Security, Collection Framework, React JS, React Native, Bootstrap, Material-UI, Tailwind CSS

Developer Tools: Git, Github, Docker, Bitbucket, Jira, Asana, IntelliJ IDEA, VS Code, MySQL Workbench

Libraries & APIs: Selenium, AWS S3, MinIO, Java Collections

EXPERIENCE

Webflow Designer / Developer

April 2026 – Present

Kreative Ally

Pakistan, Remote

- Design and develop high-performing, responsive, and visually engaging websites in Webflow, converting Figma designs into pixel-perfect experiences across desktop, tablet, and mobile devices.
- Build scalable Webflow CMS structures, reusable components, dynamic pages, multilingual layouts, navigation systems, and custom interactions to deliver modern and conversion-focused websites.
- Enhance website quality through custom HTML, CSS, and JavaScript, while optimizing SEO, performance, accessibility, cross-browser compatibility, and overall user experience.
- Webflow, Figma, Responsive Web Design, Web Development, UI/UX, Design to Website

Software Engineer

May 2025 – Dec 2025

Map Fintech

Cyprus, Remote

- Developed and optimized scalable backend services utilizing Java and Spring Boot for compliance-focused fintech applications, enhancing data security, and improving transaction processing speeds.
- Automated compliance workflows and implemented Selenium-based regression testing, improving system reliability and reducing manual testing effort.
- Deployed and managed applications using Docker, integrating MySQL and MariaDB for secure data handling, while ensuring compliance with financial regulations and data integrity standards.
- Optimized application performance and scalability through containerization, database tuning, and monitoring tools, resulting in improved uptime, faster response times, and reduced operational costs.
- Java, Spring Boot, Selenium, JUnit, Mockito, React JS, TypeScript, Ant-Design, ReactFlow, Docker, Minio S3.

Frontend Developer

Nov. 2024 – May-2025

GiftCard8

China, Remote

- Built and optimized React.js-based web applications for digital gift card sales, integrating RESTful APIs and implementing responsive, cross-browser UIs with Bootstrap and Tailwind CSS.
- Developed and launched a cross-platform mobile toolkit app using React Native, enhancing accessibility for iOS and Android users and driving higher customer engagement.
- Designed and deployed the company's official landing website with Vue.js, delivering a modern, high-performance, and user-friendly digital presence.
- Collaborated with backend teams to ensure seamless API integration, while applying UI/UX best practices, performance optimization, and accessibility standards to improve overall product quality.
- React JS, Vue JS, React Native Expo, Tailwind Css, Bootstrap, Api's Integration, JavaScript, Figma

Web Developer Intern

July 2024 – Sept 2024

Web3gle

Lahore, Remote

- Developed robust web applications using React.js, Redux Toolkit, Bootstrap, and Material UI, strengthening front-end engineering skills during a seven-week internship.
- Integrated external APIs such as OpenWeatherMap and FakeAPI, enabling real-time data handling and improving application interactivity.
- Applied Tailwind CSS for custom styling and utilized GitHub for version control, while collaborating via Figma to ensure efficient teamwork and design consistency.
- JavaScript, React JS, Bootstrap, Tailwind Css, Git, Github, OpenWeatherMap Api, Fake Api.

EDUCATION

Sukkur IBA University
Bachelor of Science in Computer Science | CGPA: 3.17/4.00

Sukkur, Pakistan
Aug. 2020 – May 2024

ACHIEVEMENTS

- Mathematics Olympiad Winner**Oct 2022
- Secured **1st place** in the Mathematics Olympiad at Sukkur IBA University and awarded a **Lenovo ThinkBook 15 G2 ITL (Core i7)** as the prize.
- OGDCL Bachelor Scholarship**Aug 2020 – May 2024
- Awarded the prestigious **Oil and Gas Development Company Limited (OGDCL) Scholarship** for undergraduate studies in Computer Science at Sukkur IBA University.

INTERESTS LANGUAGES

Technical Interests: Java Development, Data Structures and Algorithms, Problem Solving, Generative AI, Machine Learning
Hobbies: Reading books, Playing video games, Engaging in peer discussions
Languages: English, Urdu, Sindhi
